

## BIODIVERSITY: WINDFARMS WITH MANDATORY REMEDIES - 2017 status

Windfarm	Gewestplan / Plan secteur	Biodiversity inventory done	Year of inventory	Nature of remedies	Year of implementation of remedies	Surface of remedies	Duration of remedies	Partner
Ciney	Agricultural zone	yes	2007	2 Ha of sites suitable for birds: creation of a green buffer and ponds	2011	2 Ha	unlimited	Municipality of Ciney
Spy	Agricultural zone	yes	2014	325m hedge of sorbus aria (112 trees)	2014	490 m2	20 years	NA
Bièvre	Agricultural & forest zone	yes	2006 & 2008-2014	Creation of 12.5 Ha of wetland at the bottom of the valley	2014-2015	12,5 Ha	unlimited*	University of Liège
Ciney 2 & 3	Agricultural zone	yes	2010-2011	2.2 Ha of food plant cover during winter 0.6 Ha of grassy headland	2015	2,8 Ha	20 years	Faune et Biotopes
Héron	Agricultural zone	yes	2013	Food plant cover during winter: 5,80ha + Regularly cut grass cover, feeding cover of clover / alfalfa: 1,49ha + Late mowing of grass cover: 0,42 Ha + Uncut grass cover: 0,54 Ha	2016	8,25 Ha	renewed tacitly every 5 years	Faune et Biotopes
Floreffe 2	Agricultural zone	yes	2012	1,09 Ha extensive meadow + 900 m of hedges	2016	1 Ha	20 years	none
Lierneux	Agricultural & forest zone	Planned	2018	Biodiversity inventory every 3 years +Qualitative improvement of the forest and wetlands (cutting down inappropriate poplar population, elimination of young spruces, etc.)	2017	18 Ha	20 years	Sylvagri
Tournai	Agricultural zone	yes	2013	Maintain food plant cover in winter and implement permanent grassy headland	2017	6 Ha	20 years	Faune et Biotopes
Estaimpuis	Agricultural zone	yes	2012	Maintain food plant cover in winter and implement permanent grassy headland	2017	12 Ha	20 years	Faune et Biotopes

\*In 2015, this natural area was returned to the municipality of Bièvre to be managed by the Walloon Wildlife and Forestry Department (DNF).

\*\* Total surface - surface managed by EDF Luminus is 7,2 Ha.

A biodiversity inventory was performed on the following sites, but no remedies were requested: Villers-le-Bouillet, Vinalmont-Wanze, Walcourt, Dinant-Yvoir, Verlaine, Leuze-en-Hainaut, Fernelmont, Berloz, Floreffe.

No inventories were made on the following sites, all located in industrial zones: Ieper, Melle, Hamme, Evonik, Stradus, Derdermonde, Bilzen, Olen-Geel, Lummen, Tessenderlo, Beringen, Oevel, WIA Olen, Evolis and Estinnes.
